

2022 Action Plan

Patch Aldeburgh, Leiston and Saxmundham

Priorities, Objectives & KPIs – eg/...

Priority	Smart Objectives	Indicators of change/ KPIs
Reduce social isolation and loneliness particularly carers, older people, and men over the age of 40	Increase the number of groups available within the community partnership offering support to carers, older people and men over the age of 40 by XX% March 2023	Identify how these barriers can be overcome and assess the increase in overall attendance (DATE)
	Identify and use the best methods of promoting local groups to increase group membership/attendance by xx%, with a particular focus on rural communities and those without digital access, by March 2023.	Identify the increased methods of promotion and monitor overall attendance.
	Work with existing groups to map service provision post covid. CAS to support T&F group to map provisions within the patch. Paying particular attention to gaps in services for more rural communities.	Provide a full overview of services available.
	Commission at least one new service to address the gaps in provisions for specific groups that are identified through the CPs and attending partners at the community event.	Host a community group/ service event for partners to come together within the patch to identify gaps in service, produce a forward work plan with possible 'pledge' to encourage better promotion. October 2022 – measurement of pledge
	Support the creation of a dementia service in Saxmundham to deliver a programme of events to at least 10 people and their carers by March 2023	Commission at least 1 service to address an identified need for the CP patch
	Identify xx 'quick wins' to address issues around loneliness and social isolation. Eg [ie/ a number] Talking Benches to be installed throughout then CP supported	Dementia group created to support carers as well as those diagnosed with dementia in Saxmundham.
		Once all installed, promote/ launch purpose of the bench, monitor use and request feedback from the community to support need and success.

	<p>by marketing of the locations and purpose of the facility.</p> <p>Improve access for rural communities to attend groups by supporting the costs of 4 appropriate volunteer driver's licenses by April 2023.</p> <p>Use the knowledge of social prescribers, dementia project etc to help with the identification of need and success of project especially for hard-to-reach groups</p>	<p>Support organisations with the request for volunteer/ paid drivers. CP to support costs of appropriate licences (? 4 recruited and trained by April 2023)</p> <p>Monitor the provisions and attendees from men between the age of 40-60 years with the view of being and increased figure.</p>
