Hi Teresa,

Thanks for this. Information below for review, I've copied in the licensing email address too.

Four Quartets on Film directed and made by Tim Hopkins.

Four short independent films made in response to string quartets by composers John Woolrich, Judith Weir, Joe Cutler and Helen Grime.

Total duration of all four is 60'.

No content in the films is expected to raise the age limit above U.

No spoken word featured, just some English text on screen.

Screening date - Thursday 22 June, 11am, Aldeburgh Cinema

The four films have been uploaded to Vimeo, with private links and passwords, as follows, in the order they will feature at the screening:
