Material Planning Considerations and Key Policies

The main considerations in relation to the amendments proposed in this VOC are that of design and amenity.

- **SCLP11.1 and SCLP11.4**– Visual Amenity and impact on Conservation Area
 - Amendment to condition 2 to allow for minor elevational changes to previously approved elevation, including construction of glass balustrade around roof terrace and changes to the windows and side wall profile.
- **SCLP 11.2** – Impact on Residential Amenity
 - Removal of condition 8 in relation to the use of the roof terrace to the rear of the property.
 - Amendment to condition 12 to allow for an extension of time to allow for landscaping scheme to be implemented.

Recommendation and Conditions

Approval – Subject to the amended conditions noted below:

- Changes to compliance condition in relation to elevational/design changes
- Removal of condition 8 allowing roof terrace to be used as private amenity space
- Amendment to condition 12 in relation to wording:

The approved landscaping scheme under DC/20/4119/DRC shall be implemented not later than the third planting season following Occupation of the approved dwelling and shall thereafter be retained and maintained for a period of 5 years. Any plant material removed, dying or becoming seriously damaged or diseased within five years of planting shall be replaced within the first available planting season and shall be retained and maintained.

- Other condition amendments to reflect the current position of the development
- Full list of recommended conditions can be seen on pages 114 – 115 of the committee report.
