

Good Afternoon

Please find below email from CEO digitax taxi meters where the waiting time on the new proposed tariff is incorrect

Kind Regards
Stacey Lock

Subject: RE: Proposed Taxi Fare Increase - North

OK I have looked at it and don't see any problems other than they have the initial W/T wrong
In T1 it states 300 seconds and it should be 316.8 sec
T2 states 180 sec and it should be 198 sec
T3 states 240 sec and it should be 252 sec

All the errors are in the drivers favour so it up to you if you want to point it out.

Regards,

Steve Laidler
